## Adventist Health and OHSU

Imagine the benefits of combining a teaching and research center with patient-centered, whole-person care right in the local community. Adventist Health Portland, Hillsboro Medical Center and OHSU did more than imagine it. We've made it a reality that gives Portland-area patients easier access to a broader spectrum of health care than ever before.

Together we have created a health care network like no other in Portland. This collaboration means more people than ever have access to a wide range of specialists and a hassle-free connection to cutting-edge biomedical research and advanced care.

Together we have more than 3,000 providers in dozens of care locations around the Portland metro area, including OHSU Doernbecher Children's Hospital and three adult hospitals with more than 1,000 beds, and 200 outreach programs.

### The right place at the right time

The OHSU transfer center manages capacity and patient transfers with its partner hospitals, including Adventist Health Portland. This single point of contact connects referring providers and their patients with the organization that can best serve their needs.

When Jon, a resident of a small Oregon community, needed immediate access to a greater level of care for his damaged leg, his doctor called OHSU in Portland. They were able to activate immediate access to care through Adventist Health Portland that very afternoon.

## Adventist Health and OHSU

At Adventist Health Portland surgeons helped save Jon's leg. "It's for people like Jon that the patient transfer center was created," says Dr. Wes Rippey, chief medical officer of Adventist Health Portland.

Since its launch, the patient transfer center has placed more than 1,500 patients with Adventist Health Portland, dramatically improving access to care for patients like Jon.

### Expanded care

Through our partnership with OHSU we have expanded our services to include:

- OHSU Health emergency medicine providers staffing our emergency room.
- Maternal-fetal medicine specialists.
- Virtual ICU beds for teleICU with OHSU.
- Expanded surgical services in colorectal surgery, bariatric surgery, hepatobiliary and vascular surgery.
- OHSU telestroke network.
- Adventist Health Portland/OHSU Cancer Care supported by OHSU oncology specialists and clinical trial access.
