

Climbing to new heights

WELCOME to the NEW PEDIATRIC THERAPY SERVICES

Delano Regional Medical Center (DRMC) has been serving the needs of the community for four decades.

DRMC acknowledges the growing population in the area. We have recognized the needs of our community and the surrounding communities and are proud to announce the opening of our new Pediatric Therapy Services.

DRMC Pediatric Therapy Services is now welcoming and accepting new patients in the areas of physical therapy, occupational therapy, and speech and language pathology services.

MISSION: We provide a safe haven of healing and wellness that serves each individual in the spirit of kindness, dignity, and excellence.

Physical Therapy

Our physical therapists assist the pediatric population in the restoration of bodily functions through quality care in mobility, flexibility, and range of motion, relieve pain after an injury or illness, and promote independence.

We work with your physician to encourage recovery from various medical conditions: sprains, strains, fractures, burns, and amputations .

We welcome clients with neurological deficits, brain injury, developmental delay, cerebral palsy, diabetes, asthma and sports related injuries.

Speech & Language Pathology

Our speech and language pathologists assist our pediatric clients in the assessment, prevention and treatment of communication, voice, cognitive deficits, and swallowing disorders.

We are committed to quality services in the areas of stroke, brain injury, hearing loss, developmental delay, cleft palate, autism, Down's syndrome, and emotional disorders.

Therapy is fun!

Occupational Therapy

Our occupational therapists assist our pediatric clients with assisted daily living skills or work through quality therapy following injuries, illnesses, or disabilities.

We work with each patient to develop, recover, and improve the skills needed to regain an independent lifestyle.

Opening the minds of the future

Our therapists strive to provide excellent services to specialty clients with neurological deficits, brain injury, hearing loss, developmental delay, cleft palate, autism, down's syndrome, and emotional disorders.

**Conveniently located in the
Medical Arts Building**

1205 Garces Highway, Suite 208
Delano, CA 93215
661-721-5337
